More fill where it's needed most!

All Josco Industrial Brooms now feature an extra row of fibres on each edge to give you extra coverage where you need it most. The brooms are now more effective and longer lasting.

Taking care of our environment

At Josco Australia we are committed to taking care of our environment.

 Wood backed brooms are stamped with the FSC (Forest Stewardship Council) logo to indicate that the quality timber is sourced ethically from sustainably managed forests.

 Many of Josco's new products such as the All Purpose Brooms, Indoor Brooms, Platform Brooms and Bench Brushes are made utilising recycled PET fibres.

Indoor Brooms

Josco's Indoor Brooms use soft PET fibres made from recycled products and utilise a clever adaptor that allows use with either a 22mm push-in handle or with the screw-in 22mm x 1.35mm light duty metal handle (JBHM2213).

The screw-lock design locks handles into place, and is compatible with a wide variety of handles available on the market.

Fill Types

FIBRE/FILL	DESCRIPTION
Stiff PP	Moves heavy debris.
Union PP	Black & Tan PP. Medium stiffness. Great for moving large debris indoor and outdoor.
Medium Stiff PP	Great for general purpose cleaning applications both indoor and outdoor.
Soft PET	Low abrasion. Great for containing smaller dust particles.
Java	Oil, solvent and heat resistant. Ideal for sweeping concrete and cleaning hot surfaces. One of the most durable natural fibres.
Bassine	Very strong and hard-wearing fibre. Ideal for semi-stiff sweeping brooms. Resistant to high temperatures.
Horse Hair	Scratch-free dry cleaning and very good durability.
Cane	Resistant to moisture, chemicals and heat.
Rubber	Lower grade than 316SS. Use on 302/304 stainless steel in non-marine environments.
Cotton	Exceptional water retention capability. Ideal for use with mops.
Tampico	Excellent for carrying and retaining water and superior heat and chemical resistance. Excellent biodegradability.
Coco Hair Fibre	Lightweight material, ideal for softer sweeping brooms. It has good liquid carrying properties and is resistant to many chemicals and solvents.
